

The Macallan

Single Malt from Speyside

In The Scottish Highlands

The distillery has been operating since 1824 and has gone through a number of massive expansions, including 1965 doubling to 12 stills, 1974 adding another 9 to come up to 21 stills. The brand new distillery slated to open this year will have the ability to produce up to 15 Million liter when completed by all accounts!

SIX PILLARS

Underpinning this peerless distiller's brand are what they would describe as their Six Pillars, unique elements that combine to make it special

SPIRITUAL HOME

Easter Elchies House, a Jacobean manor house watches over the distillery as it's spiritual home

CURIOSLY SMALL STILLS

A key feature of the distillery style is a function of the smaller and unusual shaping of their Spirit stills, less than 4k liters and designed to more spirit to copper contact.

THE FINEST CUT

Reportedly the tightest "cut" in the industry of only 16% of spirit is taken at 69.8%

EXCEPTIONAL OAK CASKS

Originally the entire line was exclusively aged in Sherry Oak Casks, new additions with American oak that has been seasoned for two years sherry in Jerez.

NATURAL COLOR

Always true with Macallan Whiskies

PEERLESS SPIRIT

Beginning with the finest ingredients and ensuring a the highest standards are maintained the spirit is consistent and ready for maturation!

Tasting Method

Using this method you could look for three distinct sets of flavors or tastes in whisky

1st AROMA / NOSE

* Breathe over your glass with mouth & nose open to allow as much air as possible to reach your olfactory nerves! Swallow the air, and then slowly exhale and let your mind wander while deciding on the flavors you taste.

2nd PALETTE / TASTE

* Take a sip to your mouth, swirl & "chew" the spirit as you coat the inside surfaces of your mouth, again breathe through, swallow and exhale, again decide on tastes, flavors & textures.

3rd DILUTE & RE-TASTE

* Take the straw in your water glass and put your finger over the top, transport the water to your whiskey glass and drop in. The addition of a drop of water is known as "cracking" the spirit. This allows molecular bonds to break, freeing up a new range of aromas & flavors to be tasted and noted!

EIGHTEEN YEAR 43.0 %
